From the Social Chair:

I cannot tell you how proud I am to be a member of this organization since 1983, for it is such a superb group and has doubled in size from around 90 members then to 183 now! We have the reputation of being one of the three best organizations in the state along with Dallas and Houston in a city much smaller than either... Why? Because of the superb leadership who care enough to give countless volunteer hours. May I inspire you to join them? For the quality of our organization provides us with more and better resources to do better teaching and to more students. As the Social Chair I've always tried to serve the most delicious and nutritious snacks. I have finally located sparkling, crystal clear water that is just the best...Richard's Rainwater harvested from the clouds over Dripping Springs. It never has touched the ground and just in case the clouds are the least bit polluted it is further purified by reverse osmosis! It's also bottled in the best plastic that most easily decomposes. It will be served at the next two meetings; please let me know if you like it, won't you? Julianne Brown, a wonderful new member and my new assistant, has offered to drive all the way to Dripping Springs to get our water. Thank you, Julianne! Now have a great spring! Nell Trimble
